

# Bactofin

## For 2- and 4-Stroke Engines

## Fuel Stabilizer

### BACTOFIN POWER FORMULA: TRIED. TESTED. PROVEN.

- Bactofin's time tested formula is designed to greatly improve the stability of petrol and optimize it for combustion.
- Oxidation stabilizers keep the fuel from ageing prematurely - even after extended down times such as the winter or summer break
- The anti-corrosion additives integrated in Bactofin keep rust and oxidation from forming in the fuel system
- Octane levels are optimized and fuel combustion improved, reducing engine noise
- Surface-active ingredients not only clean and remove harmful deposits in the engine, but also prevent them from forming!
- Specialized ingredients reduce the surface tension of the fuel, allowing for better air/fuel mixing, resulting in better combustion
- Wear is reduced as Bactofin greatly increases the lubricity of the fuel, keeping your fuel system running at peak efficiency.
- Bactofin is specially designed to protect seals, hoses, gaskets, and flexible lines from deterioration, even, if the vehicle is in storage for long periods of time!
- Bactofin maximizes dependability and extends the service life of your equipment, saving you cold, hard cash in the process.

THE PROVEN  
POWER FORMULA  
FOR YOUR ENGINE

Ideal for vehicles, boats, Ag equipment,  
and all other types of motorized machines.

# Bactofin

## Areas of Application:

### Vehicles

Whether you use your vehicle every day, seasonally, or yearly Bactofin ensures your vehicle will start!

### 1. Improves start-up and engine operation

- Makes sure your engine starts with ease
- Dependable starting even after extended down time, e.g. after the winter break
- Also improves cold start characteristics in any season

### Water Craft

Bactofin ensures your watercraft will start every time, even if you only use it periodically over the summer.

### 2. Longer lasting service life of the engines

- Removes impurities in the engine and minimizes wear
- Prevents corrosion and fuel ageing
- Reduces maintenance cost

### Agriculture & Forestry

Ideal for use in farming and forestry machines that only see periodic use. Bactofin ensures these machines will start even after sitting for months because it doesn't only stabilize the fuel, it protects your engine.

### 3. Environmentally friendly and easy to use!

- Enhances engine performance and cuts down consumption
- Reduces emissions of engines with and without catalytic converter
- Suitable for use in petrol fuels designed for 2-stroke and 4-stroke engines

### Trade & Industry

Increase the dependability of your fleet and machinery by using Bactofin every time you fuel up!
